Annual charge per kVAr of assessed correction required to bring PF up to 0.95	0	C2PF	\$98.88		
---	---	------	----------------	--	--

**SCHEDULE 2
LOSS FACTORS**

The following loss factors are to be used by Retailers to multiply the kWh recorded on the half-hour meter at each Connected Customer's Installation in order to determine the Electricity Retailer's responsibility for the purchase of kWh within the Distribution Network.

Supply at 11kV (1.05)

Supply at 400V (1.08)
